

I like to protest Sinclair's decision to use the public airwaves to air a political hit piece over the two weeks before a national election!

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest...so unless they're willing to give equal time to showing programming critical to the Bush Administration, this is clearly an abuse of the public trust...and I will do everything I can to oppose renewal of their FCC license.

I hope you will take this violation of their FCC mandate to serve the public interest into account when Sinclair attempts to renew their broadcast license.

Sincerely,
Steve Sheridan
